

## Grants that members of the Biobio Society can apply

| Organisation  | Field   | Grant  | Description   | Deadline  | Amount   | Info  | Other   |
|---|---|--|---|---|--|---|---|
| FEBS personal grants                                    | Broad: biochemistry and molecular biology plus others | FEBS Short-Term Fellowships  | FEBS Fellowships and Scholarships are intended to allow members of a FEBS Constituent Society to work in a laboratory in a different FEBS country   | At any time; application at least two months before the proposed starting date      | EUR 60 per day in 2009 + travel costs  | <a href="http://www.febs.org">http://www.febs.org</a> | Applicants must have a PhD or have at least one published paper as a main author in an international scientific journal.  |
|   |   | FEBS Long-Term Fellowships   | Fellowships are originally granted for one year and may be renewed for a further year up to a maximum of 3 years.   | Twice a year: October 1st or April 1st  | Depending on the cost of living in the country visited plus travel costs plus possible family assistance | <a href="http://www.febs.org">http://www.febs.org</a> | Applicants must have a PhD and should normally be scientists with no more than six years post-doctoral experience.        |
|   |   | FEBS Summer Fellowships  | These Fellowships are intended to provide experience to young students in an institution within the FEBS area in a country different from that where the applicant studies.   | Once a year: April 1st  | EUR 3500 in 2009   | <a href="http://www.febs.org">http://www.febs.org</a> | The applicants should have not yet submitted a doctoral thesis. Not to conference/meeting/course costs.                   |
|   |   | Collaborative Experimental Scholarships for Central & Eastern Europe | These Scholarships are for short-term visits (normally not longer than two or three months), for the purpose of scientific collaboration, advanced training or employing techniques not available at the usual place of work. | At any time; application at least two months before the proposed starting date      | EUR 50 per day in 2009 + travel costs  | <a href="http://www.febs.org">http://www.febs.org</a> | To students engaged in research for a doctoral thesis in the currently depressed economies of Central and Eastern Europe. |
|   |   | FEBS Distinguished Young Investigator Award                          | The aim of this award is to recognise excellent research conducted by young scientists who have been recipients of a FEBS Long-Term Fellowship.   | At any time, but not longer than 12 months after completion of Long-Term Fellowship | Up to EUR 10,000 in 2009   | <a href="http://www.febs.org">http://www.febs.org</a> | For recipients of a FEBS Long-Term Fellowship   |
|   |   | FEBS Fellowship Follow-up Research Fund                              | The aim of this Fund is to help young scientists who have been recipients of a FEBS Long-Term Fellowship to start work on return to their country of origin.  | Once a year: April 1st  | EUR 20 000 in 2009   | <a href="http://www.febs.org">http://www.febs.org</a> | For recipients of a FEBS Long-Term Fellowship   |
|   |   | FEBS Return-To-Europe Fellowship                                     | For scientists who gained their PhD in Europe and left for post-doctoral training outside Europe and want to return to the European area for a second post-doctoral position. They are granted for two years.                 | Once a year: May 1st  | Depends on the cost of living in the country visited and will include travelling expenses.               | <a href="http://www.febs.org">http://www.febs.org</a> | Candidates should be members of a FEBS Constituent Society whose post-doctoral stay overseas was not longer than 3 years  |
| FEBS grants for organizing courses/ workshops/ meetings |   | FEBS Special Meeting   | Topics of high scientific interest in biochemistry and molecular cell biology.  | February 1 and August 1; at least 18 months before the actual meeting date.         | maximum of EUR 50 000  | <a href="http://www.febs.org">http://www.febs.org</a> |   |
|   |   | Workshops  | Topics of high scientific interest in biochemistry, biophysics, molecular-, cellular- and developmental biology   | February 1 and August 1; about one year beforein advance.                           | maximum of EUR 25 000  | <a href="http://www.febs.org">http://www.febs.org</a> |   |
|   |   | Practical & Lecture Courses  | Relevant, current scientific topics in biochemistry, genetics, biophysics, molecular-, cellular- and developmental biology, as well as  | February 1 and August 1; about one year beforein advance.                           | practical course max EUR 38 000 / lecture course max EUR 32 000  | <a href="http://www.febs.org">http://www.febs.org</a> |   |

## Grants that members of the Biobio Society can apply

|       |                                    |  |   |   |   |   |   |
|-------|------------------------------------|--|---|---|---|---|---|
|       |                                    |  | systems and quantitative biology  |   |   |   |   |
|       |                                    | Joint FEBS/EMBO Lecture Courses                | Relevant, timely scientific topics in biochemistry and molecular-, cell and developmental biology and related areas such as systems biology.  | February 1 and August 1; about one year before in advance.          | max EUR 40 000  | <a href="http://www.febs.org">http://www.febs.org</a>                           |   |
|       |                                    | Youth Travel Fund (YTF)                        | Financial support for students to participate in a FEBS Advanced Courses / Workshops  |   | travel, registration, as well as accommodation and food | <a href="http://www.febs.org">http://www.febs.org</a>                           |   |
| FEMS  | Microbiology                       | Meeting Attendance                             | to young scientists wishing to attend microbiology meetings that are not supported by a FEMS Meetings Grant   | April 1 and September 1   | EUR 250-600   | <a href="http://www.fems-microbiology.org">http://www.fems-microbiology.org</a> | preference will be given for meetings within the European area  |
|       |                                    | Research Fellowships                           | assistance to young scientists to pursue short-term (up to 3 mths) research projects in a European country different from that in which she/he lives.   | December 1 and June 15  | max. EUR 4000   | <a href="http://www.fems-microbiology.org">http://www.fems-microbiology.org</a> | Applicants should be working microbiologists, less than 36 years of age.  |
|       |                                    | Advanced Fellowships                           | established to stimulate and promote longer-term research projects of the highest scientific standard in the most prestigious laboratories in Europe. For a period of six to twenty four months | October 1; project should start between 6-12 months after this      | Up to EUR 75 000  | <a href="http://www.fems-microbiology.org">http://www.fems-microbiology.org</a> | Applicants should be promising, young (less than 36 years of age) European microbiologists, who have recently completed a Ph.D. and have done less than 3 years of postdoctoral work. |
|       |                                    | Visiting Scientist Grants                      | funding for Visiting Scientist Grants to support special, scientific, microbiology meetings within the European Area (which are not supported with a FEMS Meeting Grant)                        | December 1 and June 15  | EUR 300-600   | <a href="http://www.fems-microbiology.org">http://www.fems-microbiology.org</a> | The Visiting Scientist to be supported can not be from the same country where the meeting takes place.  |
|       |                                    | Meeting Grants                                 | For organizing meetings or laboratory workshops.  | March 1 of the year preceding that in which the meeting takes place | max. EUR 15 000   | <a href="http://www.fems-microbiology.org">http://www.fems-microbiology.org</a> |   |
| IUBMB | Biochemistry and molecular biology | Wood-Whelan Research Fellowships               | To support young biochemists and molecular biologists to travel to other laboratories in the IUBMB region, travel lasting 1 - 4 months  | At any time; at least two months before the intended visit          | max. \$ 3000  | <a href="http://www.iubmb.org">http://www.iubmb.org</a>                         |   |
|       |                                    | Educational Activities                         | for organizing symposia or educational workshops, courses, laboratory workshops   | in 2009; First round: September 30, Second round: April 1           |   | <a href="http://www.iubmb.org">http://www.iubmb.org</a>                         |   |
|       |                                    | Symposia                                       | for organizing symposia   | April 1 and September 1 on the previous calendar year               |   | <a href="http://www.iubmb.org">http://www.iubmb.org</a>                         |   |
| IUMS  | Microbiology                       | SGM-IUMS fellowship                            | For a research period of up to three months in a developed country  | see IUMS website  | US \$4000 for travel and subsistence                    | <a href="http://www.iums.org/Grants/">http://www.iums.org/Grants/</a>           | to applicants who are residents and who are submitting applications from a developing country   |
| IUPAB | Biophysics                         | Sponsorship of Conferences, Schools, Workshops | Support of international events that are strictly within the purview of Biophysics  | August 1 of the year prior to the event                             | Up to \$US 10,000                                       | <a href="http://www.iupab.org/">http://www.iupab.org/</a>                       |   |
